

## 2011 EC12 Green Mountain Regatta

By: Charlie Berry

Stowe Yacht Club, Stowe, VT, sponsored this annual event, which is part of the *New England Cup Championship Series*. There were 15 competitors, covering a broad geographic area in addition to the New England area, including CA, FL, WI & IL. The weekend forecast was discouraging at best: winds from the N at 0-2 each day. Ugh! We were smack in the center of a Canadian high for the full two days. However, (barely) manageable light & variable conditions did materialize for the two days. With 15 boats, we elected to use the EORS two-fleet system, moving just two boats up and down. We also by-passed the seeding race process by using the new Class Ranking System, which helped us complete a few additional races.

By mid-afternoon Saturday, the pattern began to emerge. Dave Brawner had established a dominant lead, with six bullets in the first eight races. Then there was a close pack between 2<sup>nd</sup> & 5<sup>th</sup> places (Al Dion, Ivor Walton, Rick West and Jack Ward). This pattern held through the balance of the day, with only one glitch: Brawner slipped down to B fleet in the 10<sup>th</sup> race, and couldn't work his way out in the 11<sup>th</sup> race. He'd have to start Sunday in the B fleet. Sunday saw very light air, and we managed to complete just four races. Brawner worked out of his B fleet doldrums, and had three bullets out of the four races. The tight pack from 2<sup>nd</sup> through 5<sup>th</sup> had one significant change: West had a very tough day, between being fouled at the start one race, and struggling with a mechanical problem, dropping to 7<sup>th</sup> overall. Rob Hill had a very strong outing on Sunday, and moved up into the fifth slot with consistent sailing. Full results are posted on EC12 Discussions.
